If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Neuner on October 22, 2008.

The application has been amended as follows:

Cancel claims 2, 3.

In claim 1, after the words "the second region having at least two different widths" insert

--, a first line width L_1 and a second line width L_2 , which widths are adjusted to satisfy conditions (1) and (2),

$$L_1 > D/[1 + 2(\cos \theta_2 - \cos \theta_1)] \quad (1)$$

$$L_2 < D/[1 + 2(\cos \theta_2 - \cos \theta_1)] \quad (2)$$

where θ_1 is a first contact angle when the droplet contacts the first region, θ_2 is a second contact angle when the droplet contacts the second region, and D is the diameter of the droplet.--

In claim 4, after the words "preparing a pattern formation substrate as set forth in" replace the phrase "any one of claims 1 and 2" by the phrase --claim 1--

In claim 10, after the words "a first region on the target surface; and a second region" insert

-- of width L --

after the words "adjacent to the first region" replace the punctuation mark
";" with -- , --

after the words "hydrophilicity that is less than that of the first sub-region"
insert

-- ; a first contact angle θ_1 , when the droplet contacts the first region;
a second contact angle θ_2 , when the droplet contacts the second region;
and a third contact angle θ_3 , when the droplet contacts the second region,
wherein the contact angles are adjusted to satisfy the condition,

$$L \times [1 + 2(\cos \theta_3 - \cos \theta_1)] < D < L \times [1 + 2(\cos \theta_2 - \cos \theta_1)] \quad (3)$$

where D is the diameter of the droplet --

In claim 11, after the words "preparing a pattern formation substrate as set forth
in" replace the phrase "any one of claims 3 and 10" by the phrase -- claim 10 --

Reasons for allowance

2. The following is an examiner's statement of reasons for allowance: In light of Applicant's amendments, Claims 1 and 4-11 are allowed as patentably distinct over the prior art of record. The closest prior art of record are Sirringhaus et al. (US 6,808,972) and Furusawa (US 6,734,029).

Regarding Claim 1, Sirringhaus et al. (US 6,808,972) teach a pattern formation substrate, comprising a first region having a greater repellence or less hydrophilicity than that of a second region, which is adjacent to the first region, and that of a third region (Abstract; col. 12, lines 10-15). US'972 fails to teach or to suggest fairly a second region having at least two different widths L_1 and L_2 adjusted to satisfy the conditions, given by the recited inequalities (1) and (2).

Regarding Claim 10, Sirringhaus et al. (US 6,808,972) teach a pattern formation substrate, comprising a first region having less hydrophilicity than that of a second region, which is adjacent to the first region, and that of a third region (Abstract; col. 12, lines 10-15). US'972 fails to teach or to suggest fairly a having a second region of width L with a first and second sub-region, which have a degree of hydrophilicity each of which differs from the other and from a first region, wherein contact angles are adjusted to satisfy condition (3).

Regarding Claims 4 and 11, having found independent Claims 1 and 10 directed to the product allowable, process claims 4 and 11, that depend from or otherwise require all the limitations of the allowable product claims, are allowable. MPEP § 806.05(h)

Upon further search, no other prior art that anticipates or suggests fairly the instant claims has been located as of the date of this action. Therefore, claims 1 and 4-11 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Claims 1 and 4-11 are allowed.
